Perfect game!!! Very fun, nice graphic, full controller support, steam cloud, cheap game.... all is perfect!!! I recommended this game!. Why do I keep doing this to myself? I'm like 95% sure if I talked with the developer, I would come to find this game was made in an hour. It looks like some sloppy microsoft paint job with, some free generic sound effect, with some free generic annoying music. Ugh... Oh and everytime you shoot the ball it takes a screenshot, so I had 150 images when I exited. Lovely.. Its a bit too expensive for my taste. Also the helmet looks different as advertised and the bolter does not change when you add modifications (eg. a scope or magazine). Another blade that has the exact same skin as the adamantium blade can be acquired through the supply drops. (I already had this so the adamantium blade did not add anything new for me) Straight out lazy i.m.o.. This is not not a Season Pass!. Tihis is the type of game your mother would play. Fun, easy.. I enjoyed wasting 12 minutes of my life :)

<https://www.youtube.com/watch?v=7rsuM5pxkFI>. It took me just under an hour to finish (get a score of 50) and i had fun doing so, i recommend to get this during the sale for a few cents..

[On the surface All Guns on Deck looks like a flash arcade game of the type you would find on a million forum arcades in the late 90s and early 00s, however upon playing it you will see the game offers a surprisingly enjoyable tactical depth that many prettier games lack, and while the game clearly is no AAA title, it is one you will have a lot of fun with and get well beyond your moneys worth from.](#)

<https://bluntlyhonest.review/2019/02/20/10-games-that-are-worth-a-second-look/>. A classic, well executed with hours of fun and frustration(the good kind) in a relaxed manner. I often just do a single stage while having a coffee at home. Completed it some years back as a browser game, a real challenge at the end and if you come to find it to easy, try it a harder mode :). It was fun for a while, then bad level design took over. It was all fun until the dev felt the need to add rythm\timing or whatever you want to call it into the mix. There are way better methods to add difficulty, and one level is straight up an overused "difficult" level from other puzzle games with the same mechanic. My advice: don't add game mechanics from completely different gamegenres where they don't belong.

p.s. Yes, this game costs only about 1\$ but you know what? I still PAID for this game so i'm gonna be hard on it. I expected something more than an experiment.. Super relaxing and easy to setup and play. Even my three year old enjoys it!. If this game had a whole team of devs, pathetic.

But it was made by 1 person,

magnificent.. I've played this game since it was on Kongregate with minimal graphics. I'm so glad to see this fun little game made with such beautiful graphics. It definately has a lot of replay value as a quick 10-15 minute game (or 5 minutes if you don't do so well) The major pro and con to this game is the same: It's short. You get a full game out of it, but each game really is short. Thankfully, the developers decided to put in custom battles which I have yet to try, but it is a new feature that looks like it adds more life to the game. Definately worth \$5 and I'm glad to support an indie developer!. This is a great puzzler in the genre of the connect 3(4\5) of the same thing to clear. Halloween themed and a variety of map shapes and levels to keep things interesting to the very end. Great for all the family and good clean fun. Sounds are well done, graphics are good for this type of game.

If you like "bejewelled" style games and are in the market for a cheap themed game, I recommend this one. Achievements and unlocks are there for added play value.

Would trick or treat again.. I really enjoyed this game. Not so many puzzles but a lot of clue collecting to help solve the case! I really hope they remaster some more of the older games as some do not work on newer computers which is disappointing.. Old style RPG! love it. Don't bother with this game, it's dead -- practically a ghost town. The developers haven't updated the game in over a year and there are hardly any matches or players on these days which is a bit disheartening, considering I had a lot of fun playing it upon its release. It was fast-paced fun and left me addicted for a good while, until of course, I got bored due to a lack of updates, as stated earlier. Shame.. Underrated game with solid game mechanics. Was a lot of fun. I love this game and would love to see it expanded on.
